

BE **SUSTAINABLE**

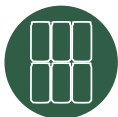

Aluminium cans

Why cans?

Recyclable

Aluminium is fully and infinitely recyclable without loss of quality.

Optimised logistics

Cans can be stacked to make maximum use of storage.

Fully decorated

360° decoration solutions including the end to create compelling brand visuals.

Efficient in filling

Cans are filled at fastest speed thanks to a large opening and stability.

Preferred by consumers

Consumers love can for convenience and for the variety of drinks available in cans.

Today **73%** of aluminium beverage cans are recycled in Europe.
